MEMORANDUM FOR: Mr. [REDACTED] - DC/NE/AA
6054-7314

SUBJECT : Annual TSD Research and Development
Seminar [REDACTED] 25X1A

1. During the past few years, the Technical Services Division has regularly held a Research and Development Seminar for select senior individuals from the Clandestine Services. The purpose of the meeting is to explain and seek guidance for the proposed TSD/Development and Engineering Program for FY-67.

2. I am well aware of the additional burden that this activity may place on already busy schedules, but the goal of responsible guidance for the approximately [REDACTED] expenditure in Research and Development to assure its operational pertinence certainly warrants the effort involved. Past participants, including the undersigned, have found the Seminar both interesting and very useful.

25X1A

3. Barring overriding special commitments, I would therefore like you to attend the Seminar which will be held at [REDACTED] on Monday, Tuesday and Wednesday, 21-23 March 1966.

25X1A

4. A TSD representative will contact you personally sometime before the date of the Seminar to brief you fully on it.

Desmond FitzGerald
Deputy Director for Plans
